The Problem

- 50 million uninsured in U.S./ more than 800,000 in Colorado.
- People locked out of the market because of cost or denied access altogether because of health status.
- Lack of health insurance correlates to poorer health.
- Lack of security impacts job mobility.
- Uninsured increase costs for insured.
Cumulative Increases in Health Insurance Premiums, Workers’ Contributions to Premiums, Inflation, and Workers’ Earnings, 1999-2012

Reform framework

• Everyone required to have health insurance by January 1, 2014. Exceptions include financial hardship, religious objections, American Indians, those below tax filing threshold, those for whom lowest cost plan is more than 8% of income, undocumented immigrants.

• Most people will still get health insurance through their employer.

• Small businesses (with fewer than 50 employees) are not required to offer insurance.

• Many small businesses are eligible for a tax credit when they do offer health insurance.

• Large businesses (more than 50 employees) must offer insurance or pay something if their employees get help from the government beginning in 2015.
Individual mandate

- All citizens and legal residents required to have coverage starting 2014
- Penalties assessed through federal income tax for each uninsured family member to be phased in starting in 2014 at $95/individual or 1 percent of household income.
- In 2016 penalty = $695/adult, $375/child or 2.5% of income. Maximum of $2,085 per family or 2.5% of income, whichever is greater.
Affordability Provisions

- Medicaid expansions: all non-disabled under age 65 eligible up to 133% of poverty
- Premium tax credits available up to 400% of poverty
- Cost sharing subsidies up to 250% of poverty (limits out of pocket spending)
- New marketplace for accessing coverage (Exchange)
## Insurance reforms
